ENVIRONMENTAL & ENERGY AWARENESS WEEK CELEBRATION: April 22-24—Mark your calendars for April 22-24 to attend the activities for the Environmental & Energy Awareness Week in celebration of Earth Day! Visit our new website for information regarding CD's invitation to all employees, Opening Ceremony, exhibitors, events, field trips, presentations, demonstrations, training, times and locations, partners, and committee members, <http://environmental.ksc.nasa.gov/eeaw/eeaw2002/index.htm>. Watch for future articles and join in the fun! Point of contact: Environmental & Energy Awareness Group, TA-C3, 867-8413/867-8452. (TA-C3)

ENVIRONMENTAL & ENERGY AWARENESS WEEK: Mr. David B. Struhs, Secretary of the Florida Department of Environmental Protection, will be at KSC on April 22 in the Training Auditorium in celebration of **Earth Day**. The Environmental & Energy Awareness Week celebration will begin with an Opening/Awards Ceremony in the Training Auditorium on April 22 at 10 a.m. Mr. Struhs will discuss the Governor's Energy Budget Priorities. He was appointed Secretary by Governor Jeb Bush in January 1999 and confirmed by the Florida Senate in March. Mr. Struhs oversees Florida's environmental regulatory and law enforcement programs, the acquisitions and management of public lands, including an extensive system of state parks, and the development and regulation of Florida's water resources through the state's water management districts. Upon his arrival in Florida, Secretary Struhs became chief strategist and advocate for the passage of Governor Jeb Bush's "Florida Forever" Plan—the largest conservation land program in the world. In his first year in Florida, the Florida Junior Chamber of Commerce named Mr. Struhs "**Outstanding Young Environmentalist**." Secretary Struhs takes pride and finds personal pleasure in the 150 parks operated by DEP. Florida's State Parks currently hold the National Park and Recreation Association's Gold Medal, having been voted the best state parks system in America. He has also gained national recognition for Florida's DEP by successfully arguing that the "reasonable assurance" test widely used by environmental regulators as the standard for issuing permits should consider the applicant's record of environmental performance. This common sense consideration represents a significant advancement in executing environmental laws. Please join us in welcoming Secretary David B. Struhs to the Kennedy Space Center. (TA-C3)

ENERGY 101 TRAINING CLASS: Energy 101 is being offered during Environmental & Energy Awareness Week, open to all KSC, CCAFS, and PAFB employees, sponsored by SGS. The course will be held on April 23, from 9:30-10:30 a.m. in the Training Auditorium (M7-351). The facilitators will be Mr. Bill Stoeckel and Mr. Dave Koval. Bill, armed with nearly 20 years experience in the Air Force's civil engineering community joined the Johnson Controls team at CCAFS in March of 1998. After the award of JBOSC, Bill led the combined AF and NASA real property accounting function and took on the task of developing and maintaining the Spaceport Facility Manager Program. Working with the SGS Web Development Team, Bill initiated a web based facility manager database and training program that has grown to what we now know as the Facility Information Center. Bill is the Section Supervisor for SGS Real Property and GIS. Dave Koval started his career at KSC in 1980 and worked in various areas of responsibility, including Logistics, Management, and Engineering. Dave is an Energy Analyst in the SGS Energy Management Office. Point of contact: Environmental & Energy Awareness Group, TA-C3, 867-8413/867-8452. (TA-C3)

NUTRITION TIP OF THE WEEK FROM THE KSC FITNESS CENTERS: Using the Food Guide Pyramid—Most people have heard of the Food Guide Pyramid (which can be found at the web address below) but may be confused on exactly how to use it. The Food Guide Pyramid (FGP) lists the number of recommended servings per day for each food group. Eating the right amount from each group ensures that you are getting the nutrients that your body needs each day. However, if you aren't sure what amount makes up a serving size, you could be over- or under-estimating your nutrient intake. Here are some examples of serving sizes:

- * 3 oz. of cooked meat, fish, or poultry = the size of a deck of cards or the palm of your hand
- * 1 “medium” potato = the size of a computer mouse
- * 1 piece of fruit = the size of a tennis ball
- * 2 Tablespoons of peanut butter = the size of a golf ball
- * 1/2 cup of fruit, vegetables, cooked cereal, pasta, or rice = the size of a small fist

If you want to make sure that you are eating a well balanced, healthy diet, pick a day or two and pay close attention to the foods you choose, and the amounts you are eating. Then see how you “stack up” to the FGP! Source: www.nal.usda.gov/fnic/,

OFFICE COPIER VIEWGRAPH MATERIAL: Viewgraph material will not be supplied to NASA and authorized associated contractors by the copier contractor, Lanier. All viewgraph material must be obtained through JBOSC Supply. The stock numbers are 7530-00-238-9232 and 7530-00-K05-4069. All other viewgraph materials are not acceptable for use in the Lanier Copiers. (TA-B3)

USE OF MULTICOLOR OFFSET PRINTING, COLOR COPIERS, AND COLOR PRINTERS: Managers and employees are reminded that all color printing/copying must be in accordance with NPG 1490.5A. The NPG states that offset printing in two or more colors is prohibited for work in which additional colors provide no demonstrable value, but are used primarily for decorative effect. The unnecessary use of color products costs the government additional money without additional benefit. The NASA Inspector General has reviewed various agency products and determined that color products have increased significantly. Managers at all centers are to ensure requests for multicolor printing and color copying are only made when the use of multiple colors adds demonstrable value, not just cosmetic appeal, to the product. For more information, contact the KSC Printing Management Officer, Ted Courson, 867-4256. (TA-E1)

UNAUTHORIZED COMMITMENTS AND RATIFICATIONS: An unauthorized commitment is an agreement between the Government and a contractor that is not binding; solely, because the Government representative who made it lacked the authority to enter into that **UNAUTHORIZED** agreement on behalf of the Government. Ratification is the act of approving an unauthorized commitment by an official who has the authority to do so. Unauthorized commitments are strongly discouraged and can indicate serious employee misconduct. Individuals making unauthorized commitments may be subject to disciplinary action, and the issue may be referred to the Office of the Inspector General. Only Contracting Officers acting within the limits of their delegated authority are authorized to commit the Government. If you are unsure of your authority, before directing a contractor to take any action, call your project control office, or the Procurement Office at 867-7217, for assistance. (OP-AM)

OFFICIAL NASA/KSC U.S. MAIL: When sending official NASA/KSC U.S. Mail using NASA envelopes or mailing labels, the return address must contain the mailcode of the sender. Mail couriers will reject mail which does not contain a return address. (TA-E1)

PRINTING/COPYING PAPER USERS: The NASA HQ Code JT has set a goal for each center to reduce the annual use of paper stocks by 10 percent. Suggestions on how to accomplish this goal are printing on both sides of the paper; circulating, posting, and publishing memoranda and other information using email, bulletin boards, routing slips, newsletters; and distributing documents in electronic format via file servers or home pages to avoid making copies on office copiers. Your support in implementing these suggestions will help meet KSC's paper reduction goal. (TA-B3)

ORDERING BLANK FORMS/PUBLICATIONS: All requests for blank forms and publications should be submitted on KSC Form 7-11 to the Forms Warehouse (mailcode: "FORMS WAREHOUSE"). Allow approximately 5 working days to receive the requested material. Any requests for emergency or work-stoppage forms will be handled by Forms Control by calling 867-3590. Customers should not go directly to the warehouse to pick up forms without calling Forms Control first. Customers cannot call the Forms Warehouse direct because they have an unlisted telephone number. (TA-E1)

PRIVACY ACT NOTICE: When Privacy Act Information (Social Security Numbers, etc.) is created, place NASA Form 1534, "THE ATTACHED MATERIAL IS SUBJECT TO THE PRIVACY ACT OF 1974, AS AMENDED," over the information. If Privacy Act information is to be sent to another individual or office, a "TO BE OPENED BY ADDRESSEE ONLY" envelope, KSC Form, 13-242 (as revised), must be used. (TA-E1)
